

Karaoke for your event

Everything on one page: what is included, fixed prices, how it runs. Equipment and hosting from a single source.

Why Swiss Karaoke

- Everything from one source: equipment, hosting, setting up and packing down. One contact person instead of three suppliers.
- Fixed prices by guest numbers – the price is settled before you commit and can be budgeted cleanly.
- A host carries the evening: the programme works even when guests are reserved at first.
- Either as one element within an existing schedule or as the main programme of the evening. For agencies and organisers we act as a subcontractor on request.

What is included

- Complete sound & lighting, tailored to your venue
- Professional hosting all evening

How it works

1. Enquiry with date, location and approximate guest numbers – you get a binding answer on availability and price at short notice.
2. We clarify the technical side for the location: floor space, power and the time window for setting up and taking down. We agree the details directly with you or with the venue.
3. On the day we set up, host the karaoke part and pack up again. During the event you have a fixed contact person on site.
